

Jonathan R. Reed

Developer Relations | Technical Education | AI Enablement | Developer Success

contact@jonathanreed.com | Dallas, TX | JonathanRReed.com | github.com/JonathanRReed | linkedin.com/in/jonathanreed0

Technical educator and product-minded builder who turns AI, security, and web concepts into clear demos, docs, workshops, and public tools. Strong fit for DevRel, developer education, technical community, AI enablement, and developer-success roles that need communication plus real technical depth.

Experience

Podium Education | Team Lead, AI Programs | Dec 2025 - Present

- Teach and mentor 400+ students on AI tooling, prompt hygiene, data handling, responsible use, project execution, and career-facing technical communication.
- Presented live AI sessions, answered 1:1 student questions, and helped students overcome fear or confusion around AI by turning abstract risk into practical habits.
- Created grading and feedback methods that reduced evaluation turnaround by 31% while improving rubric clarity and project quality.

The Global Career Accelerator | Product Strategy & Prototyping Intern | Aug 2025 - Nov 2025

- Led rapid prototyping sprints for L'Oreal and American Eagle, translating loose requirements into user flows, clickable demos, and stakeholder-ready presentations.
- Built an Intel mockup using proprietary data and supported charity: water with web design and AI-enabled workflow improvements.
- Trained peers on practical AI use, prompt hygiene, and data handling for responsible deployment.

Hello.World Consulting | Founder & AI Tooling Consultant | Jul 2022 - Present

- Build AI tools, local/private RAG systems, demos, and technical docs for client teams, translating messy adoption problems into usable workflows.
- Write public technical material and build open tools around AI behavior, prompt inspection, model comparison, security, and infrastructure risk.
- Run security and architecture reviews around prompt injection, data leakage, and safe rollout so teams can understand tradeoffs before deployment.

Reed & Terry, L.L.P. | IT & Security Lead | Jun 2023 - Present

- Support attorneys and staff with internal IT, web, security, and AI workflows, including training, troubleshooting, permissions, and secure adoption practices.

Methodist Dallas Medical Center | EMT-B, Emergency Department Intern | Aug 2024 - Dec 2024

- Worked high-pressure ER and ambulance shifts, strengthening clear communication, documentation, and fast prioritization.

Selected Projects

Prompt Info | Next.js, TypeScript | Live: prompt-info.helloworldfirm.com | GitHub: github.com/JonathanRReed/prompt-info

- Developer-facing prompt inspection tool for token counts, payload formats, cost estimation, and pre-execution planning.

AI-Stats | Astro, TypeScript, Supabase | Live: aistats.jonathanreed.com | GitHub: github.com/JonathanRReed/Ai-stats

- Public model-comparison hub for pricing, context, provider, benchmark, and deployment tradeoff exploration.

Apple-MCPs | Python, macOS automation | GitHub: github.com/JonathanRReed/Apple-MCPs

- MCP server collection for Apple-native workflows across Mail, Calendar, Notes, Files, Reminders, Maps, and system automation.

PoliBench | Astro, React, Bun, Convex | GitHub: github.com/JonathanRReed/Poli-bench

- Public benchmark/study page for model policy posture, answer stability, parse quality, refusals, cost, and latency.

Technical Writing | jonathanreed.com/blog

- Articles include Stealth Models, The Clipboard Is a Hostile Interface, Prompt Injection Is Phishing for LLMs, and The Days the Internet Dies.

Education

The University of Texas at Dallas, B.A. Sociology, Expected 2027 | EMT-B Certificate, UT Dallas/UEMR, Grade A | Wharton County Junior College, Core Curriculum, GPA 3.35

Selected Certifications & Recognition

Vanderbilt Prompt Engineering; Google AI Professional Certificate; IBM AI Engineering Professional Certificate; OpenAI x GCA AI Professional Skills; Toastmasters Public Speaking.

IBM Applied Software Engineering Fundamentals; GitHub Career Essentials; Wharton AI Applications in Marketing and Finance; L'Oreal UX/UI & Prototyping.

Skills

Developer education; technical writing; workshops; demos; documentation; AI enablement; prompt engineering; public speaking; TypeScript; Python; React; Astro; GitHub; APIs; RAG; security education; community support.
